**Applicant: Lisa Le**

Dear admissions committee,

It is a great pleasure to write this letter for Ms. Lisa Le, highly recommending her for your dental hygiene program. Lisa graduated with her Bachelors in Biology in December of 2019, and is now working her way to her goal of being a dental hygienist. I have known Lisa for a little over six months now, and I believe that she is one of the most diligent and hardworking individuals that I have ever worked with. Over the short amount of time that I have known Lisa, she has demonstrated an extraordinary ability to learn new skills and understand concepts quickly. Lisa currently works at our office as a dental assistant and has been a wonderful addition to the team. I believe that she will continue her track record of excellence as a dental hygiene student in your dental hygiene program.

Lisa had started working at the office around March of this year, and has shown so much talent and drive in the amount of time that I have worked with her. She is a quick learner, learning all the tools and techniques after being shown only a few times. This was quite impressive due to the fact that she has not had previous dental experience. Additionally, Lisa has been an excellent help around the office, making sure everything is clean and organized. She ensures that equipment is sterilized and ready to be used, not only for the doctor, but for the rest of the team as well. Lisa is also a capable individual that quickly assesses patient needs and keeps patients up to date with upcoming appointments. She possesses great customer service and communication skills. I believe that her great work ethic and hunger for knowledge will make her an excellent student for your dental hygiene program.

In summary, I give Lisa my highest recommendation. She is a team player that does everything with a big smile on her face. She is able to do many things in the office, and is always happy to help others. Not only will her social skills and positive attitude be of great use to her, I believe that her dexterity is also excellent. During the stages of training, I could see that she was very detail-oriented and had the ability for fine movement that many people training did not possess. I have every confidence that she will excel in her dental studies and succeed in her future dental career.

Sincerely,

David Martinez, RDH
